SUBCELLULAR LOCATION: Type I membrane prote PYM: Inducible phosphorylation of tyrosine cytoplasmic domain (By similarity).

SIMILARITY: Belongs to the ephrin family.

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                            142
